

GRADATIM

Press Release

Gradatim happy to announce the Joint Venture(50/50)with DM Corp – Singapore to strengthen its Litigation – e-discovery services.

Bangalore, 30th March 2008: Gradatim IT Ventures, a pioneer in Micro-transactions and e-discovery services in India is happy to announce that we have finalized a Joint venture partnership with DM Corporation (**DMC**), a leading data gathering services company based out of Singapore to form Gradatim – DMC in Singapore

DM Corporation (**DMC**) Singapore offers Data conversion Services, Asian language Forms Processing Services, Litigation Processing including Hardcopy Discovery, OCR Translation, Professional Translation and Data Room Services in addition to distribution of technology solutions for the Litigation support in APAC market.

Prakash – CEO of Gradatim says “Our buy-out and investment plans are part of our aggressive expansion plans. Together with DMC we are putting the foundations in place for an aggressive and profitable growth. We can now offer complete e-discovery services, both hard copy & electronic, to global clients across Asia, including support for local Asian languages.

Gradatim, a pioneer in providing Business Process Utility services, offers complete E-discovery services using world class technology platforms enabling attorneys, lawyers in their due diligence process. Our platform is completely online, collaborative in nature and secured. We provide tremendous value to companies across geographies seeking comprehensive legal discovery solutions. **Gradatim** provides an optimal combination of technology, experienced professionals and large processing capability.

We are very happy to establish this JV with Gradatim as this would complement our Hardcopy discovery services with Gradatim's electronic data gathering skills and expand globally – says – **Mr. Kay Gee Ong – MD of DM corp.- Singapore**. DMC will continue to service the legal community in APAC under Gradatim-DMC business.

GRADATIM

Gradatim is quite excited on this says – **Balasubramanian** – Director - Business Development, it will help global legal firms and service providers to leverage on Gradatim's strength in APAC market and leverage on our complete back office support out of **India**.

Secondly, **Mr. Bala says** DMC has over the years built a reputation for exceptional quality, which has helped them to get more repeat businesses.

Gradatim has a pool of skilled lawyers to do the review & discovery services based out of our BPU facility in Chennai, India. Our Lawyers are fully trained in international laws to handle any large projects on Litigation. Gradatim aims to be a One-Stop Shop for litigation firms and corporate in-house counsels.

In keeping with our belief, "Think Global, Act Local", our philosophy has been growth through global strategic partnerships" says C V Prakash who spearheads Gradatim IT Ventures as its CEO and primary founder.

About Gradatim: Established in early 2007, Gradatim is a privately held IT company with operations in India, Australia & Singapore. Robust industry strength technology platforms are the underpinning of Gradatim's delivery model. These platforms, built using principles of SOA, encapsulate business functions into well defined modules. These modules can be customized in quick time for a customer. In addition, Gradatim can run business processes on behalf of the customer owing to its ability to provide infrastructure management services. This makes Gradatim capable of managing parts of customer's business in an efficient and cost effective manner. Gradatim delivers business Utility Services using a Hosted technology model. Solutions are built from ground up on Service-oriented Architecture, utilizing a common set of code and data definitions consumed by customers in a one-to-many model. Gradatim's ESP services are specific to offering business expertise rather than pure-process expertise - combining deeper understanding of the targeted business process.
